### WORK EXPERIENCE

#### Mysoftway Technology and IT Consultancy , Ichalkaranji

##### Full Stack Developer Trainee (Nov 2023 – Present)

- Developing a strong foundation in full-stack development using technologies such as Angular, Ionic, Laravel, and MySQL.
- Gaining practical experience in designing responsive user interfaces and managing dynamic data flow between frontend and backend.
- Building and integrating RESTful APIs, managing databases, and implementing CRUD operations to support core functionality.
- Continuously improving debugging and troubleshooting skills by identifying and resolving issues during testing and deployment.

##### Intern (Aug 2023 – Nov 2023)

- Strengthened problem-solving skills through logic-based tasks and real-world technical assignments.
- Began learning frontend development with Angular, focusing on layout, components, and interactivity.
- Gained an understanding of UI/UX principles, component-based architecture, and responsive design basics.

### EDUCATION

#### DKTE'S TEXTILE AND ENGINEERING INSTITUTE, ICHALKARANJI.

B.Tech (Computer Science and Engineering) – 8.1/10

### PROJECTS

#### Cross Platform Marketing App

Tech Stack: Angular, Ionic, SQL

- Developed a mobile and web application for door-to-door marketing agents, digitizing tea product sales and reducing paper-based tracking by 90%.
- Created an admin dashboard to oversee agent activity, enabling real-time monitoring and improving decision-making efficiency by 40%.
- Contributed to backend tasks like API integration and data handling with MySQL.

#### AZ2Admission Portal

Tech Stack: Angular, Laravel , Ionic

- Developing a student portal application to simplify access to academic information and streamline application processes.
- Creating an admin interface for managing content and student data, reducing manual administrative work by 70%.
- Enhancing the frontend structure for better mobile responsiveness and an improved overall user experience.

### SKILLS

- Programming Languages : C, C++, SQL, TypeScript, PHP
- Frontend Technologies : HTML, CSS, JavaScript, Angular, Ionic, Bootstrap, Basic React
- Backend & Database : Laravel, MySQL
- Tools & Platforms : Git, GitHub , Basic Docker
- Other Skills : RESTful APIs , JSON , Component-based architecture, UI/UX principles.

### CERTIFICATIONS

- Full Stack Development Internship Certificate – Mysoftway Technology
- Data Science using Python Internship – ATS Infotech Pvt. Ltd.
- AWS AI-ML Virtual Internship – Amazon Web Services & AICTE
